Part C – Worldshows in WCF

C.1 – World Show (WS)

It is an exhibition of the WCF, which is organized by three or in exceptional cases by two clubs and for which the permission of the board of WCF is required.
It must be held in one of the working languages of the WCF.
The application must be submitted for the approval procedure at least six months before the date of the exhibition.
After completing the approval process, the Executive Board issues a special license.

In principle, all clubs are given the opportunity to organize a World Show every two years at the most, but only on condition that no other club in the respective country wants to organize a World Show. If more than one club from the same country applies for a World Show, the allocation will be made in order.

If the club is a former patronage club that has not been a patronage club yet for a long time before being confirmed as a full member at the General Assembly and has therefore not held all five shows with Supervisor, this club must first complete the five shows with Supervisor before being approved for a World Show.

At least 80 cats must be present at each World Show.

If a country contains two continents, a World Show can take place on every continent.

C.1.1 – One title is encountered as having been received in another continent/country.
One of the titles is encountered in the cat's show career as having been received in another continent or in another country. Only the result from one day may be used as a substitute for these titles.

C.1.2 – Three, in exceptional cases two organizing clubs
If a World Show is organized, it must be organized by three, in exceptional cases by two clubs, of which at least one club must be a full member of the WCF and the other club is a cat club or an organization for cat fanciers.

C.1.3 – At least one club must be a full member
The club applying for and organizing the World Show must be a full member and must be a resident of the same country, where the World Show takes place

C.1.4 – One club is responsible
Only one club, which is a full member, is responsible for the World Show of the WCF, the other clubs are co-responsible.

C.1.5 – In good standing
All clubs organizing the World Show must be in good standing at the time when applying for the license and when organizing the World Show.

C.1.6 – No disciplinary case pending
All clubs applying for and organizing the World Show are not permitted having any disciplinary sanction against them or having any disciplinary case pending.

C.2 – Licensing

C.2.1 – Special license fee
The special fee for the license is decided by the board.

C.2.2 – Deadline for the license application
Clubs must send the application for the previously permitted World Show license to the license manager no later than 30 days after receipt of the special license.

C.2.3 – No other exhibitions in the same country on the same date
In the country, where the World Show is organized, no other exhibitions will be licensed for the same days. In case of a license in the protected area the organizer of the WS may renounce the protection and still receive a WS-license. The licensing bureau is obliged to inform about that in time. If another exhibition is organized on those days, the distance between both exhibitions must be 2000 km bee-line, independent from the continent or the country.
Exception protected area: Exhibitions in connection with a fair.

C.2.4 – Approved judges
Only WCF, WCC and LOOF judges approved by the Board may judge at a World Show.
