

## WCF Breed standard

Update 01.01.2010

### Bombay

**Body** The body is medium sized and muscular. Neither coarse, nor elongated and very heavy.  
The legs are of medium length, the paws are rounded.  
The tail is of medium length. It continues straight to a slightly rounded tip.

**Head** The head is rounded, short and broad. The contours do not show any pointed angles.  
The profile is clearly curved.  
Chin and lower jaw are firm.

**Ears** The ears are medium sized and slightly tilted forwards. They are broad at the base with slightly rounded tips and set wide apart.

**Eyes** The eyes are large, round and set wide apart.  
The eyes are golden to dark orange, the latter colour is preferred.

**Coat** The coat is very short, fine and silky in texture. It lies close to the body and has a glossy black colour from the root to the tip.

**Faults**

- eyes too protruding

#### Scale of points
