

Scottish Fold Shorthair (SFS)

Body

The medium to large sized cat is muscular and stocky.
Chest, shoulders and back are broad and massive.
The legs are short and muscular, the paws are thick and round.
The neck is short and solid.

Tail

The tail is of medium length, reaching at least to the shoulders. It ends in a rounded tip.
It should not have thickened areas or stiffness and should be fully flexible up to the tip.

Head

The head is rounded, massive, broad with a firm chin.
The nose is short, broad and straight.
The profile is curved (without a stop).
The cheeks are full and round.
The large, round whisker pads give definition to the short, pronounced muzzle.

Ears

The ears are small and forward folded, with slightly rounded tips which point towards the center of the head. They are set wide apart and lie flat to the skull.

Straight ears:

Medium to small in size with rounded tips. They are set wide apart to show a round top to the head.

Eyes

The eyes are large and round. They are wide set. Eye colour corresponds with the coat colour.
Blue and odd eyes are allowed only in pure white, bicolour, harlequin and van (01, 02 and 03)
providing there is a white mask

Coat

The coat is short and very dense, standing off from the body. It is plush, due to substantial undercoat.
The texture is crisp, not woolly.

Colour varieties

All colours, patterns with any amount of white and pointed colours with Siamese points without white
are recognized.

The description of colours is listed in the general list of colours
