Highland Straight (SSL)

Body
The medium to large sized cat is muscular and stocky.
Chest, shoulders and back are broad and massive.
The legs are short and muscular, the paws are thick and round.
The neck is short and solid.

Tail
The tail is of medium length, reaching at least to the shoulders. It ends in a rounded tip.
It should not have thickened areas or stiffness and should be fully flexible up to the tip.

Head
The head is rounded, massive, broad, rounded forehead with a firm chin.
The nose is short, broad and straight.
The profile is curved (without a stop).
The cheeks are full and round.
The large, round whisker pads give definition to the short, pronounced muzzle.

Ears
Medium to small in size with rounded tips. They are set wide apart to show a round top to the head.

Eyes
The eyes are large and round, set wide apart.
Intense color is desired. Eye color ranges from orange, deep orange to copper.
Green eyes are allowed in golden and silver cats.
Orange eyes are possible in silver tabbies.
Blue and odd eyes are only allowed in pure white, van, harlequin and bicolor cats (01, 02 and 03), provided there is a white mask.
In colorpoint cats, the eye color is an intense blue, as dark as possible.

Coat
The coat is of medium length and very dense, with substantial undercoat. It is crisp and does not lie flat.

Color varieties
All colors and colors with white (01, 02 and 03) and pointed colors with Siamese points without white are recognized.
The description of colours is listed in the general list of colours.

Remark:
White 09 (medallion, locket) is only permitted for pedigree registration.

Faults

- Body too long
- Tail too short, too long, not thick

Faults that exclude the certificate

- Any sign of lack of mobility
- Pale eye color
